

Sinclair Broadcasting should not be allowed to air the so called documentary "Stolen Honor" regarding John Kerry.

Further they should be prohibited from using their public airway license to broadcast partisan advertising unless they do so in a fair and equal manner.

The production in question is a blatant partisan distortion that has no basis in fact and is clearly designed to influence the presidential election. This constitutes a violation of the public charter that granted Sinclair Broadcasting their right to broadcast their signal.

I call upon you the FCC to stop this travesty by ordering Sinclair to refrain from airing this political message.

John S. Anderson
